Dear Mr. Foubík,

on behalf of Prague Chocolate, I would like to thank you for your help connecting our two countries. What makes me even happier is to know that there are people like you whose goal is to help others selflessly, in this case also other countries.

CBC helped us not only with administrative issues but mostly find new liaisons with Czech and Slovak business people from the same field who never hesitated to lend us their helping hand. We had the priceless opportunity not only to learn how to do business in the Middle East but also to find support in their help and understanding. It feels really good to come to a foreign country and meet helpful and forthcoming compatriots there.

We would like to express our warmest thanks to your whole team that you maintain the strength and verve to live for this amazing project.

Yours faithfully,

Petr Kovařík
